

TECHNICAL DATA

380e LINDHAUS DYNAMIC PROFESSIONAL UPRIGHT VACUUM CLEANER

Description:

A professional standard, dual-motor, upright vacuum cleaner. The Lindhaus Dynamic 380e is approved by hospitals and boasts a five-stage filtration system including an electrostatic micro-filter. Precision engineered and computer balanced motors assure optimal performance and low sound levels.

Featuring a 38cm cleaning head along with 880W suction motor, the Lindhaus 380e is capable of superior suction across a variety of hard and soft floors.

Benefits:

- Approved by hospitals
- A superior multi-function, high-efficiency vacuum cleaner
- Five stage filtration system
- Filters offensive odours
- Ultra strong metal brush support with bearings
- Full set of on-board tools including telescopic wand, crevice tool and upholstery tool.
