

TECHNICAL DATA

PRO 2 TOILET CLEANER

For use on:

- ✓ Toilet bowls
- ✓ Urinals
- ✓ Drains

Description:

Pro 2 Toilet Cleaner is a powerful, non-chlorine based product which works on the effectiveness of oxygen-based bleaching methods to clean and sanitise.

The three-way action of cleaning, bleaching and de-odourising ensures toilets and urinals remain clean and hygienic.

Pro 2 is a ready to use formula containing advanced biodegradable cleaning agents with stabilised hydrogen peroxide. The product clings to a surface in order to maximise contact time, and when agitated foams, cleans and bleaches to leave behind a gleaming, spotless surface.

Benefits:

- Three-way cleaning action
- Septic system friendly
- Completely removes unpleasant odours and stains
- Powerful, oxygen-based bleaching action
- Leaves no residue

Instructions for use:

Always shake before use.

Pour directly onto the soiled surface and squirt up under the toilet rim.

Leave to work for a few minutes then agitate with a brush and flush away with water. In the case of heavily soiled toilets Pro 2 can be left for up to 30 minutes before agitating and flushing. After use close the lid tightly.
