TECHNICAL DATA

PRO 3 ANTI-BACTERIAL MULTI-PURPOSE CLEANER

For use on all washable surfaces including:

- ✓ Carpets, rugs and soft furnishings
- ✓ Walls and floors
- ✓ Table and desk surfaces
- ✓ Toilets, baths, showers & sinks
- ✓ Cabinets and shelving
- ✓ Windows and mirrors

Description:

Pro 3 kills 99.999% of bacteria and is suitable for periodic deep cleaning, daily maintenance and hygiene control.

The product is certified to kill MRSA, HIV, Clostridium difficile spores, H1N1 Influenza viruses and common food poisoning bacteria including salmonella typhimurium, listeria monocytogenes, enterococcus hirae, escherichia coli, pseudomonas aeruginosa and staphylococcus aureus.

Passes EN 1276, 13704, 14476 and 14675.

Benefits:

- High performance cleaning product for use on a wide range of surfaces.
- Product is completely safe for users and the environment.
- Kills 99.999% of bacteria.
- Provides superior cleaning & sanitising results.
- Removes unpleasant odours.
- Biodegradable and bleach free

Instructions for use:

Trigger spray:

Dilute product into a trigger spray bottle and apply directly onto the surface to be cleaned or sanitised. Allow a couple of minutes contact time and wipe with a microfiber cloth.

Washing or mopping:

Prepare a solution of product in a bucket. Using a cloth, sponge or mop apply to the surface and agitate. Allow a couple of minutes contact time before wiping dry. No need to rinse.

Note: When floor cleaning always sweep floors to remove loose dirt and litter before floor cleaning is carried out. Care should be taken to use clean cloths, mops & equipment. Solutions and water should be changed before commencing cleaning on the next surface. Disclaimer: Pro 3 Anti-bacterial multi-purpose cleaner can be used on all surfaces that can be cleaned with water. However, as with all cleaning products, it is always wise to test on a small inconspicuous area before general application.

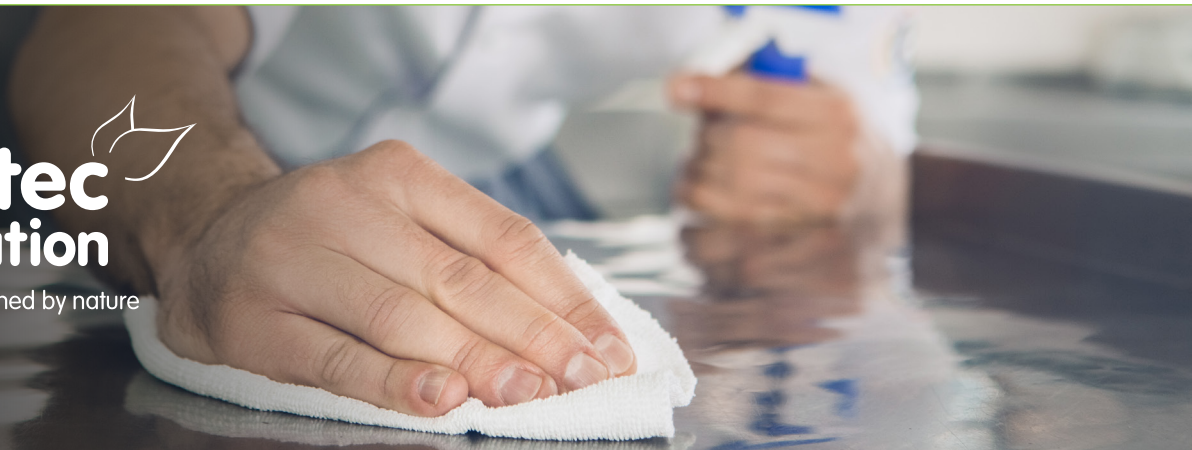

Application guidelines:

The choice of dilution depends on the area to be cleaned and the level of soiling.

Heavily soiled areas:	Dilute 1:4	1 part chemical to 4 parts water
Hygiene control:	Dilute 1:8	1 part chemical to 8 parts water
Daily sanitising:	Dilute 1:10	1 part chemical to 10 parts water

TECHNICAL DATA

PRO 3 ANTI-BACTERIAL MULTI-PURPOSE CLEANER

Dilution guide:

For each dilution add the amount of chemical as directed below with either a measuring jug or 30ml shots from a pelican pump dispenser. Top up the remainder of the container with fresh water. Note: These dilutions are approximate and serve as a guideline for optimum product performance. Depending on the equipment used, level of soiling and frequency of cleaning dilutions can be increased/decreased to individual requirements. We do not recommend exceeding a dilution of 1:150.

500ml spray

Standard bucket (20L)

1:4 100ml / 3 shots
1:8 55ml / 2 shots
1:10 45ml / 2 shots

5l / 168 shots
2.2l / 73 shots
1.8l / 60 shots

Contains:

CAS No: 63449-41-2 Quaternary ammonium compounds, benzyl-C8-18-alkyldimethyl, chlorides.

CAS No: 68439-46-3 C9-11 Alcohol Ethoxylate

CAS No: 7173-51-5 Didecyldimethylammonium Chloride

Care:

If medical advice is needed, have product container or label to hand. Wear protective gloves/protective clothing/eye protection/face protection. In case of contact with eyes rinse cautiously with water for several minutes holding the eyelids open. In case of ingestion: Wash out mouth with fresh water, do not induce vomiting. Keep out of the reach of children.

State	Liquid
Appearance	Pink
Odour	Floral
pH	7
Solubility in water	Miscible in water
