TECHNICAL DATA

PRO 85 EXTERIOR WINDOW CLEANER

Suitable for the removal of:

- ✓ Alkaline scale & haze
- ✓ Run-off
- ✓ Water spots
- ✓ Sprinkler spots
- ✓ Foggy glass
- ✓ Streaks
- ✓ Hard water deposits

Description:

Pro 85 has been specially formulated to help treat and repair plastic, polymer compound and glass windows which have been previously cleaned with harsh chemicals. Normal wear and tear, scratches and stone chips combined with corrosive cleaners accelerates crazing and cracking of windows. In hard water areas these cracks fill with carbonate deposits causing white staining and the phenomenon of 'white spot'. In extreme cases this means visibility is severely reduced.

Pro 85 combines the performance properties of modern surfactant chemistry and mild de-scalants to remove carbonate deposits. Specialised polymers then actively repair scratches and prevent re-deposition of scale. The result is an effective solution for the removal of unsightly deposits, helping to restore visibility.

Benefits:

- Restores visibility on dull windows.
- Reverses the effects left behind from harsh chemicals.
- Removes carbonate deposits, dirt and grime.

Instructions for use:

Always shake before use.

Using a trigger spray apply directly onto the surface to be cleaned. Leave for 2 minutes and buff with a soft 'glass' microfiber cloth. Repeat if necessary. For best results use Pro 85 regularly. Results may vary depending on severity of the damage.

Note: Pro 85 is safe for use on cleaning all windows however, as with all cleaning products, it is always wise to test on a small inconspicuous area before general application.

TECHNICAL DATA

PRO 85 EXTERIOR WINDOW CLEANER

Contains:

CAS No: 5949-29-1 Citric Acid Monohydrate

CAS No: 68515-73-1 D-Glucopyranose, Oligomers, Decyl Octyl Glucosides

Care:

Wash hands thoroughly after handling.

Wear protective gloves/eye protection.

IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do so. Continue rinsing.

If eye irritation persists: Get medical attention.

Keep out of the reach of children.

State	Liquid
Appearance	Colourless
Odour	Barley perceptible odour
Relative density	1.07
Solubility in water	Miscible in all proportions

Available sizes and ordering codes:

6 x 500ml Ready to use

PRO85-6x500
